

INLINE DUCT FAN

Key Specification

- High quality engineering plastics
- High quality pure copper wire motor
- Resistant to extrusion and deformation,
- Ensure that the fan is stable and quiet stable, and more stable.

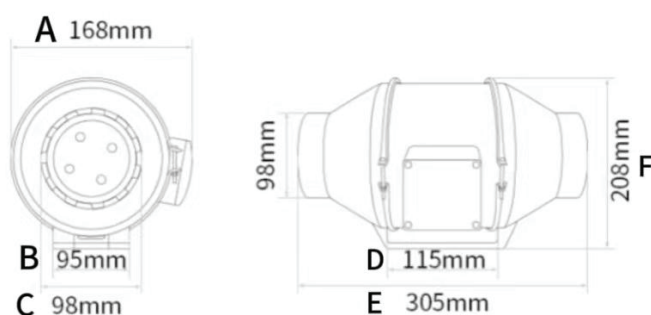

Applications

Family Rooms, Schools, hotels, Shopping Malls, Entertainment Venues, etc.

SPECIFICATIONS

Product Code	FY0IVR4
Material	ABS housing PP wind wheel
Input voltage	220V-240V
Power	35W
Air volume	285m ³ /h
Static pressure	170Pa
RPM	2700r/min
noises	53dB
Motor	Capacitor motor 100% copper coil
Bearing	Ball bearing
Application grade	12-20 m ²
Takeover size	100
Fan size/cm	30.5*21.5*19.5
